### **DETAILED ACTION**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the claims (G) a processor programmed to display and update in real time and simultaneously, in response to a user request, the most current price information and time of receipt information from each of said price source identifiers permitting access to said price information is indefinite as the processor is programmed to be able to receive price source data of various formats including trade data, inventory data and non-trade research data, and to store said price submission data in said database fields. Please amend claims so that each of these price source data are displayed.
